TO CARRIAGE MAKERS and DEALling; patiented Dec 17, 1850. By the use of this important
improvement in the construction of Carriages, the running
part is greatly strengthened, the vehicle can be turned in
about one third the space required for the present construction, and the inconveniences of getting in and out of
the Carriages is entirely obviated. It is applicable to all
Carriages built with perches; the construction is sample,
and Carriages already in use, may be altered at a small
cost. The undersigned are using the Coupling in their
Factories, and regard the invention as important. Having
been constituted sole. Agents for the City and County of
New-York, we are authorized to grant rights to other Carriage Makers as d venders to make and sell the improvement in this County. New. York, Oct. 20, 1851.

Roberta, Esq., having been appointed Chairman, U. C. Hill, Esq., Vice-Chairman and G. W. Peek, Esq., Secretary. After a full examination and trust of TILTON'S improvement to the Violin, the following resolution was offered by Geo. Loder, Esq., and anammously passed:

Resolution was offered by Geo. Loder, Esq., and anammously passed:

Resoluted, That this meeting do heartily approve of the Invention of Mr. TILTON, and indorse its usefulness and its applicability to the Violin, rendering the tones clearer, fuller, and of the quanty and freedom of vibration of an old Italian instrument.

The subscribers are constantly adding this improvement to old and new instruments—one day only being required to effect the change. They also keep on hand for sale at wholesale and retail, Improved Violins.
